

Barlow Tyrie Equinox Settee - Coal only - 1 Quick Ship

WQS-BTY-1EQD2-5489

When designing for an outdoor patio or deck, you need to consider not only style and comfort but also

construction and durability. Barlow Tyrie is a leading manufacturer of outdoor furnishings, offering a range of contemporary pieces made from marine-grade stainless steel and plantation-sourced teak. The SAE 316 marine stainless steel is frequently used in marine environments because of its resistance to corrosion. The teak they use comes from Indonesian plantations on the island of Java. Teakwood is naturally high in oil content, making it rot resistant when exposed to extreme weather. For this reason, it's often used for marine decks and construction in addition to outdoor furnishings. This Barlow Tyrie Equinox Deep Seating Lounge Chair has a generous seat depth for added comfort and the all-weather cushions are made from Sunbrella acrylic fiber.

Please Note: Fabrics, canopies, cushions, covers, special order sling colors, and special order finishes are considered customized and may have longer lead times. These items cannot be cancelled, returned, or exchanged.
