

Bjorn Parcel Box with Motion Activated Light

QUA-ALX-BP

Do you need more room? The Bjorn top-loading, freestanding, locking Mail and Parcel Box is made of strong galvanized steel with a Black powder coat finish. The mailbox features a bright LED motion activated light above the mail/parcel slot to light up the entire front of parcel box at night for easy mail/parcel retrieval. LED light is powered by four AA Batteries (Double A Batteries not included) and two buttons are located inside at top of the mailbox inside mail retrieval door to adjust brightness and time light remains illuminated. It can easily fit up to two weeks of mail and is fitted with a heavy duty Ruko lock. A galvanized mounting base is also available (sold separately) to anchor parcel box into the ground.

- Handcrafted from solid, heavy gauge black powder coated steel
