

Bjorn Parcel Box with Motion Activated Light - Wall Mount

QUA-ALX-BWP

Do you need more room? The Bjorn mail and parcel box is a top-loading, wall mounted, durable parcel box constructed of strong galvanized steel with a Black powder coat finish. It features a bright LED motion activated light above the mail/parcel slot to light up the entire front of the parcel box for easy nighttime mail/parcel retrieval. LED light is powered by four AA Batteries (Double A Batteries not included) and two buttons are located at top inside the mailbox behind mail retrieval door to adjust brightness and time light remains illuminated. It can easily fit up to two weeks of mail and is fitted with a heavy duty Ruko lock. Please note: Mounting hardware is not included. If mounting to a masonry wall, use masonry mounting screws with masonry anchors at least 1-1/2 inches long.

- Handcrafted from solid, heavy gauge black powder coated steel
- Parcel opening: 11-3/4L x 1-3/8H inches
- Locking front retrieval door
- Bright motion-activated LED light above the mail slot
- Dimensions: 20.5L x 13.5W x 9.5H inches
