

Dot Planter 16" Diameter

CRGN-A5940

We believe gardens can connect with people just like languages. Our Dot planter was designed with Braille wrapped around this container to create a one-of-a-kind texture that reminds us of the beauty in communication. This self-watering plant pot is a beautiful addition to both traditional and modern spaces. Stage the different sizes together to create groupings of different plants. The Dot planter features a built-in TruDrop One system. It is an innovative self-watering technology that reduces the need for frequently watering your potted plants.
