

Ecojet Cyclone Wall Mount Misting Fan

EJT-CYCLONE-WM

The EcoJet Cyclone is available as a wall-mountable unit model. It cools and refreshes up to 800 square feet of indoor or outdoor space using unique patented disk technology that circulates an impressive 1,625 cu. ft. per minute. When temperatures rise, create an outdoor "cool zone" of comfort with ultra-fine cool mist that lowers area temperature. Ideal for outdoor patios, decks, porches, lanais, spa and pool areas, anywhere spot cooling is desired. Uses light-bulb equivalent energy and low water consumption.
