

Ecojet Hurricane Wall Mount Misting Fan

EJT-HURRICANE-WM

The Ecojet Hurricane is available as a wall-mountable unit model. It cools and refreshes up to 1,500 square feet of indoor or outdoor space using unique patented disk technology, moving an impressive 5,885 cu. ft. of

air per minute. Create an outdoor "cool zone" of comfort with an ultra fine cool mist cloud to lower area temperature. Ideal for outdoor patios, decks, screen porches, lanais, spa and pool areas, anywhere portable spot cooling is desired. EcoJet fans are quiet, low-maintenance and energy-efficient. With their unique center centrifugal disk design, there are no nozzles to clog. When water is pumped to the center disk, which is spinning at super high velocity, droplets explode into microscopic fine particles that create a cooling cloud of mist so fine you don't get wet.

- Includes: 1 tabletop misting fan
- Color: Black, Gray or White
- Water Supply: Water line or standard garden hose
- For commercial and residential use
- Coverage area: 1500 sq ft
- Air Flow: 7062 cfm
- Electricity Consumption: 430-watt / 3.91Ah
- 110 Volt
- 67 decibel
- Dimension: 29"L x 16"W x 34H"; 45 lbs
