

Emu Apero Outdoor/Indoor Stacking Armchair

EMU-1301

Starting from the wooden chair of the German tradition, Apero comes as its interpretation in a contemporary

design. Emu's know-how of working with metal makes the tubular metal seat and back appear light and airy. That results in a fine, smooth silhouette making the light play between the lines and reflect an unusual pattern of squares. Its minimal, graphic, multi-purpose design discreetly adapts to any type of environment and style.

Deeply dedicated to the 100% Made-in-Italy production philosophy, Emu has been manufacturing some of the world's finest domestic and commercial furniture since 1951. Pioneering in the technical know-how for metal processing and protection, they create pieces that allow their customers to relax in an Italian-style outdoor living space. They are dedicated to innovation, quality, sustainability, and international orientation. The company has a distribution network covering over 85 countries.
