

Golden Care Teak Cleaner and Shield Bundle

KVRS-GT113

Our Teak Cleaner is the best way of removing dirt, oil, and age darkening from teak and other high grade all-weather woods. After cleaning your furniture with Teak Cleaner, you can then treat it with Teak Protector (sold separately) if you want to bring back the dark golden-reddish color of new wood. Protector should never be used until all oils and stains have been removed with Cleaner.

Please note: there is no requirement that you clean or protect your teak or brazilian cherry. If you want your furniture to age to a silvery gray color over the years (gray-brown for brazilian cherry), then do nothing. This product is for those who want to maintain the original wood color over the years. This product will also clean any mildew growth and the mottled appearance that results from mildew over the months and years. The use of this product will restore wood for about one season, depending on the location of the furniture. The cleaner will restore the furniture to a natural golden (teak) or reddish (brazilian cherry) color regardless of how long the piece has been outside. This product requires no heavy scrubbing or polishing and takes approximately thirty minutes to apply. It can be used as often as you wish. This hardwood cleaner is the finest we know of. It is made in Europe by one of the world's leading wood care product companies.

Wood Protector

This is a one liter bottle of Teak Protector, which is the best way of maintaining the original reddish tint and luster of new teak, Brazilian Cherry, and other high grade all-weather woods. You should always clean your furniture with Teak Cleaner (sold separately) before applying Protector, in order to remove oil, stains, and discolorations from your wood. Teak Cleaner will remove most stains, oils and discolorations, and lighten the wood considerably.

- Water-based, 100% Biodegradable, safe, non-hazardous, no VOCs
- Sponge or cloth applicators included
- 1 Liter per bottle; 2 bottles

BEWARE OF OIL-BASED PRODUCTS

Golden Care products are water-based. Water transports active ingredients into teak, then the water evaporates, leaving the wood residue-free. Oil-based products are for indoor woods only. In teak, the oil seeps into cracks and does not evaporate, resulting in mold and mildew.

The results from Golden Care products last 3-4 times longer. The world's top teak manufacturers use Golden Care products in their factories. Treat and protect your teak furniture with the best.
