BEWARE OF OIL-BASED PRODUCTS

Golden Care products are water-based. Water transports active ingredients into teak, then the water evaporates, leaving the wood residue-free. Oil-based products are for indoor woods only. In teak, the oil seeps into cracks and does not evaporate, resulting in mold and mildew.

The results from Golden Care products last 3-4 times longer. The world's top teak manufacturers use Golden Care products in their factories. Treat and protect your teak furniture with the best.
