

Iron Embers 3 ft Pyramid Outdoor Fireplace

WQS-IRN-AA-0029

The Pyramid Outdoor Fireplace is the pinnacle of campfire containers (literally). The raised square base radiates heat down onto your feet all night long and the sloped mesh sides contain the fire in its natural

shape: a pyramid. One side of the fireplace hinges out with a stainless spring handle located near the bottom to prevent it from getting too hot. The open design of the Pyramid provides an awesome view of the fire, all while keeping it well controlled. Using stainless steel mesh is unique to Iron Embers - in all our years we've never had a piece of mesh have a hole burned through. Combine that with a 1/4" thick steel frame and you have a winning combination. Perfect for home or commercial use.
