

Iron Embers Medium Fire Grate

WQS-IRN-AB-0003

The Fire Grate improves the airflow of your campfire. It simply sits in the bottom of the pit and raises the logs off the floor to provide more spacing around the logs. The grate is especially useful when building a fire because it holds all your tinder and logs together in a teepee. Built with a sturdy 1/4" thick steel grid, the Fire Grate can endure the heat of the fire, and often turns red hot! The Medium Fire Grate fits the 24", 30", & 36"

Cupola, 2' Cube, 2' Cottager, 3' & 4' Pyramid, and 4' & 5' Chiminea.

- Dimensions: 21"L x 21"W x 3"H; 19 lbs
- 1/4" thick steel construction
- For wood burning fire pits
- Raises logs off the floor for improved air flow
- Great for building a teepee fire
- Can be used with multiple fire pit sizes and styles
- 10 Year Limited Warranty
- Note: Iron Embers products are custom made and may not be returned or exchanged.
