

Jardinico 13' JCP401 Octagonal Sidepost Umbrella

JRD-JCP401-40

The JCP.401 Octagonal 13' Sidepost is easy-to-use with a simple crank lift system to open and close umbrella. The unique tilting function allows the umbrella to tilt front to back and left to right. This elegant, extra-sturdy aluminum rectangular shaped frame, seamlessly transitions from pole to base and rotates a complete 360°. The JCP.401 style is the perfect shade for commercial and residential use.

Boasting more than 15 years of experience, the Belgian Jardinico is a well-established value in the outdoor world. The company brings an extensive collection of quality umbrellas both for residential projects as well as the contract market. Modern designs, top quality, maintenance-friendly fabrics and handy opening systems are featured. Made to last for years to come, these innovative umbrellas do not just protect against the sun. They embody beauty and elegance that serves as the finishing touch for any outdoor

Base Note: Due to this revolutionary hexagonal pole designed for durability in high wind, this unique sturdy base or mounting option is required. The umbrella will not fit in a typical round umbrella base.

Frame and Base Note: Base finish matches frame finish except for TK (Alu Teak) which uses the CC (Charcoal) finish.
