

# Jardinico JCP201 15' Crank Lift Centerpost Umbrella

JRD-JCP201-45

The JCP.201 Crank Lift 15' Centerpost is simple and easy-to-use with a telescopic crank system to allow umbrella to be closed without hitting the table beneath it. This elegant, extra-sturdy aluminum octagonal shaped frame, seamlessly transitions from pole to base. The JCP.201 style is a solid solution for exceptionally large spaces.

Boasting more than 15 years of experience, the Belgian Jardinico is a well-established value in the outdoor world. The company brings an extensive collection of quality umbrellas both for residential projects as well as the contract market. Modern designs, top quality, maintenance-friendly fabrics and handy opening systems are featured. Made to last for years to come, these innovative umbrellas do not just protect against the sun. They embody beauty and elegance that serves as the finishing touch for any outdoor setting.

**Base Note:** Due to this revolutionary hexagonal pole designed for durability in high wind, this unique sturdy base or mounting option is required. The umbrella will not fit in a typical round umbrella base.

**Frame and Base Note:** Base finish matches frame finish except for TK (Alu Teak) which uses the CC (Charcoal) finish.
