LS-ALR16-W6

From vibrant to elegant, La Siesta hammocks are perfect for every outdoor living space. Featuring improved weight distribution, they are carefully constructed for ultimate comfort and relaxation.

- As colorful as the country, the hammock as a cultural asset reflects the diversity and joie de vivre of Colombia.
- Robust, quick-drying and weather-resistant: These are the characteristics of the outdoor fiber from LA SIESTA.
- The high-quality bamboo wood from responsible forest management is particularly stable and elegant thanks to its pleasantly smooth surface.
- With its 160 cm wide cloth surface, it combines the extraordinary comfort of the classic hammock with the decorative appearance of the rod hammock. Very comfortable for 1 to 2 people.
- By doubling the weft threads, the selvages are reinforced and therefore particularly tear-resistant.
- The number of hanging cords adds to comfort and durability. The more there are, the more evenly the weight is distributed - for a feeling of weightlessness!
