

SUNHEAT Wall-Mounted Electric Patio Heater - 1500W

SHI-WL-15

SUNHEAT heaters use a patented quartz lamp surrounded by an emitter. The gold coated emitter delivers a hotter, more instant heat. Unlike other outdoor heaters, SUNHEAT wall mounted heaters give a very low glare, but you will feel warm and comfortable immediately. Suitable for wall and parasol mounting (Wall Mounting Bracket Included) Warranty: 1 year or burning 5,000 hours. Body manufactured from powder coated aluminium. Ideal for outdoor use. Unique and patented lamp design is highly efficient due to a very effective reflector and a glass-free front face. Supplied with wall bracket and parasol arm clamp. Infrared technology Instant heat using short wave quartz halogen emitters with a tungsten filament. 1500w Single phase Outdoor Heater. 3-Prong Plug, Gold Lamp, IP66 Rated, CE approved. 10 ft Cable length.
