

Serrano Classic Lighted Address Plaque

QUA-SRP-AB01-BLK

Serrano (Classic) lighted address plaque features a polymer backplate with a tough plastic lens. Plaque can be seen up to 100 feet away at night and comes with 4" black polymer numbers 0-9 twice and tube of adhesive glue in the box. Low voltage, plaque runs approx 12 to 14 volts. A set of bulbs are included with 3 feet of low voltage wiring. A low voltage transformer is also available and sold separately. (Please note: Any higher voltage than 14 volts will cause the backplate and lens to melt due to the heat generated by not staying within manufacturer specification.)

- Elegant way to display your home address
- Visible at night for guests, deliveries, and emergency vehicles
- Comes standard with black polymer raised numbers 0-9 twice
- Low voltage fixture
- Can attach to existing doorbell transformer or low-voltage transformer (sold separately)

- Dimensions: 5.5W x 10.5L x 2D inches
