

Vita Classic 6'x6' Vinyl Keyhole Composting Garden Bed

VTA-VT17120

Inspired by the African keyhole gardening technique, the Classic Composting Garden Beds let you compost household waste and grow vegetables in the same garden. Your daily kitchen scraps can be conveniently placed in a central compost basket. This household waste is then organically transformed into nutrient-rich soil that nourishes your vegetables. Compost-fed soil better holds moisture and nutrients, while using up to 70% less water.

Constructed with premium weather-resistant vinyl, this Vita garden bed ensures healthy, safe food production and a long product lifespan. It is maintenance-free and built to last. The boards slide easily into place without the need for tools or screws. It is perfect for growing deep-root vegetables, herbs, or flowers.

It's Vita's conviction that good starts with giving. As a company, they are committed to looking beyond their personal lives and asking, what can we give? One project that Vita supports is The Inn of the Good Shepherd. It is a homeless shelter and food bank that distributes over 6,000 lbs of fresh produce into their local

community each week. They also support global non-profits. These include The Sanmen Youwei Library in China and Thrive in Kageyo, Rawanda. With training and tools, they empower people to grow an abundance of healthy, organic, disease-fighting foods.

- Garden bed includes four sides; open on the bottom
- Material: Crafted from vinyl that is food-grade, weather resistant, and BPA/phthalate-free
- Color: White
