

Vita Classic 8x12 Keyhole Composting Garden

VTA-VT17125

Distinctive design and effortless functionality, the Classic Composting Garden Beds are perfect for growing deep root vegetables, herbs, or flowers. Raised foldable fence panels help your plants grow stronger and taller and provide protection from unwanted animals. This 8' x 12' x 20" garden provides approximately 65 square feet of planting space and is perfect for growing food for your whole family. They are crafted from a Food grade BPA-free, phthalate-free vinyl, so you can grow food safely and with confidence.

Inspired by the African keyhole gardening technique, the Classic Composting Garden Beds let you compost household waste and grow vegetables in the same garden. Your daily kitchen scraps can be conveniently placed in a central compost basket. This household waste is then organically transformed into nutrient-rich soil that nourishes your vegetables. Compost-fed soil better holds moisture and nutrients, while using up to 70% less water.

It's Vita's conviction that good starts with giving. As a company, they are committed to looking beyond their

personal lives and asking, what can we give? One project that Vita supports is The Inn of the Good Shepherd. It is a homeless shelter and food bank that distributes over 6,000 lbs of fresh produce into their local community each week. They also support global non-profits. These include The Sanmen Youwei Library in China and Thrive in Kageyo, Rawanda. With training and tools, they empower people to grow an abundance of healthy, organic, disease-fighting foods.
