

Vita Urbana 6'x6' Keyhole Gray Composting Garden Bed

VTA-VT17607

Distinctive design and effortless functionality, the Urbana Composting Garden Beds are perfect for growing deep root vegetables, herbs, or flowers. They are crafted from a composite material that offers the natural look of wood but with the lightweight durability of vinyl. The garden beds are BPA/phthalate-free ensuring healthy, safe food production.

Inspired by the African keyhole gardening technique, the Urbana Composting Garden Beds let you compost household waste and grow vegetables in the same garden. Your daily kitchen scraps can be conveniently placed in a central compost basket. This household waste is then organically transformed into nutrient-rich soil that nourishes your vegetables. Compost-fed soil better holds moisture and nutrients, while using up to 70% less water.

It's Vita's conviction that good starts with giving. As a company, they are committed to looking beyond their personal lives and asking, what can we give? One project that Vita supports is The Inn of the Good Shepherd.

It is a homeless shelter and food bank that distributes over 6,000 lbs of fresh produce into their local community each week. They also support global non-profits. These include The Sanmen Youwei Library in China and Thrive in Kageyo, Rawanda. With training and tools, they empower people to grow an abundance of healthy, organic, disease-fighting foods.

- Garden bed includes four sides; open on the bottom
- Material: Crafted from composite that is food-grade, weather resistant, and BPA/phthalate-free
- Color: Gray
