

Vita Vaxa 14" Self-Watering Large Graphite Planter

VTA-VT17801

Växa is the point where form and functionality meet. An intuitive self-watering planter with modern flair, the smartly-designed Växa offers a convenient low-maintenance take on houseplants. Växa's minimalist silhouette and faux-stone finish adds a touch of stylish sophistication to any space. The removable stand is crafted from strong, sustainable bamboo, whose sleek black design complements any decor for an effortlessly timeless appeal.

The irrigation system allows plants to take as much or as little water and nutrients as they need when they need them. Just fill up the reservoir and let Växa take care of the rest. The visual water gauge lets you know how much water is left in your planter and when it's time to refill. The Växa can be used with or without the stand, indoors and outdoors.

It's Vita's conviction that good starts with giving. As a company, they are committed to looking beyond their personal lives and asking, what can we give? One project that Vita supports is The Inn of the Good Shepherd. It is a homeless shelter and food bank that distributes over 6,000 lbs of fresh produce into their local community each week. They also support global non-profits. These include The Sanmen Youwei Library in China and Thrive in Kageyo, Rawanda. With training and tools, they empower people to grow an abundance of healthy, organic, disease-fighting foods.
