

Foosball Installation Instructions

1. Bolt legs together using 2x2 powder coated runners and bolts provided.

Square legs before tightening bolts.

2. Level legs using permanent shims if necessary. $\frac{1}{4}$ " tile makes a good permanent shim.
3. Bolt down to concrete using supplied brackets and hardware.
4. Lift concrete foosball table by cradling the concrete in two 12' lifting straps. **DO NOT ATTEMPT TO LIFT USING FOOSBALL RODS.** Damage to the table and weight shifting may occur.
5. Bolt up through powder coated runners into foosball table.
