B MORTISE HOLE

STEP-I

Unpack, inspect and lay the parts on a clean, flat, soft surface to avoid marring the wood.

NOTE: During assembly of the furniture please match all joints with the corresponding letters or numbers stamped on the furniture.

STEP-II

Carefully lay the TABLE TOP on a flat, smooth surface and fit the LEG ASSEMBLY mortise holes onto the TABLE TOP tenons as shown in the assembly photograph. Joints are meant to be tight, use of a rubber mallet may be necessary.

STEP-III

Carefully hammer the dowels into all the pre-drilled holes of the assembly as shown in the photo. Use the sanding block between the hammer and the dowels for the last few blows to prevent marring of the wood. **DO NOT FORCE DOWELS; ANY PROTRUDING DOWEL CAN EASILY BE SANDED DOWN.**

STEP-IV

*****OPTIONAL***** Rubber glides are provided for your items but are not necessary. Secure them to the bottom of the legs using a proper, hand held screw driver. Using a power driver might strip the head of the screw or damage the glide. Starter holes are visible as shown in the first photograph.
