

### Market Umbrella (MU01, MU02, MU03)- Rib Replacement Instructions

1. Remove the umbrella canopy.
2. Lay umbrella on a flat surface.
3. Remove the orange wires in the sliding and stable crowns by un-threading it through the ribs.
4. Remove broken umbrella rib(s) and replace with new rib(s).
5. Using the new orange wires (provided with replacement ribs) re-thread the wire through the umbrella ribs.
6. While one person holds the ribs in place in the indentations on each crown, push the orange wire into the horizontal groove on the crown.
7. While still holding ribs in place, tighten the orange wire by twisting the ends together. Tighten as much as possible.
8. Excess wire can be clipped and discarded.
9. Replace the canopy.
